The DAB AI Files: [ChatGPT Made Friendly](#)  
Welcome!

---

**Welcome!**

Hey there! We are Dennis and Barb from the magnificently named DennisAndBarb Coaching team, and we're going to show you how free yourself from the fear of actually using the wunderkid of AI, ChatGPT.

**That's the ENTIRE premise of this power report!**

And once you've lost your fear, you'll be able to take advantage of ChatGPT (truly take advantage) and begin beefing up your bottom line like nobody's business.

See, we personally know how frustrating it can be to see this person here making a tidy income via Copywriting and using ChatGPT.... Or that person there cleaning how by creating apps that harnesses the power of ChatGPT...

And where does that leave you? Just getting frustrated more and more that all these wealth-growing ideas seem to be passing you by!

So let us begin by revealing a secret among many people online regarding their bit ChatGPT success....

**They lie.**

Just like those peoples who post ONLY their highlight reels of their lives!

Who even \*knows\* what \*really\* goes on after the video has been shot or the uniformed salesman drives away the rented Ferrari that was on the scene **solely**

## The DAB AI Files: ChatGPT Made Friendly Welcome!

**to make people believe they have as much money** as they claim? It

Same things for those who claim to make beeyons and beeyons with ChatGPT.

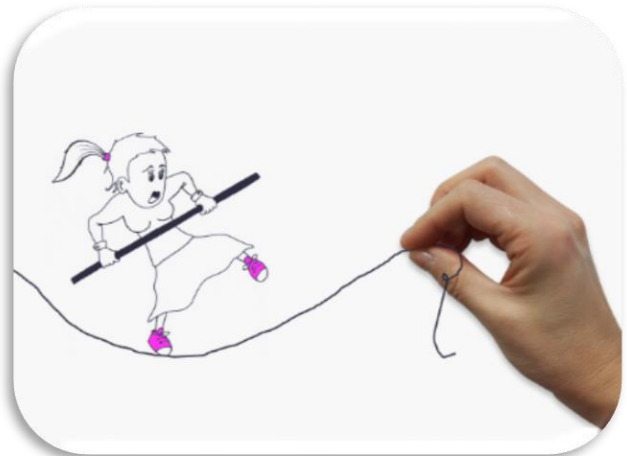

It's all unprovable, after all. Put out a slick-enough ad with converting copy to die for and ....

The orders just keep rolling on in!

It's no wonder that people think its as easy as falling off a cliff and grabbing hold of a money tree on the side to save themselves!

Let's hear from Barb about it all:

**See, giving yourself permission to venture out into new technologies can be hugely scary and intimidating (especially if you failed bigtime before).** I discovered that first-hand when not only did I fail my Computer Science class in college, I failed so bad that I probably made my professors doubt their life choices and question why they ever became an educator in the first place. 😊

Still, though, I did manage to break the Google Code in 2004 for Reasons (I could rank #1 for \*any\* keyword) . And I ended up as one of the top 100 affiliates for eBay (such a thing definitely provides a reason to improve!). And when ChatGPT first got released, DAB Coaching (me and my partner, Dennis Becker) were the FIRST to market concerning this incredible technology.

But there was one key point I forgot to truly hammer home back then in our “AI Made Mighty” Blueprint.. and that was understanding that just **anyone**<sup>1</sup> could learn ChatGPT or Midjourney or ... and see the increases of productivity and profits that I have.

---

<sup>1</sup> If you're one of those folks who cannot, not to fear. There are many other ways to earn online.

## The DAB AI Files: ChatGPT Made Friendly Welcome!

---

Well, honestly.... I still think anyone CAN. BUT... there are some things that need to be understood, embraced, ... and then let \*go\* so your future can happen.

And here's how we're going to make it happen for you.

**We are assuming that you already read "AI Made Friendly"<sup>2</sup>.** You won't have to worry about making embarrassing mistakes, or in asking dumb questions – because we firmly believe the dumbest question you can ask is the one you're afraid to ask.

Wasn't that simple? 😊

So in other words...

**We are going to take you by the hand and \*show\* you in beautiful detail how you can start as a Beginner ChatGPT Master and then simply grow grow grow at the pace \*you\* want to see.**

The process for the above is methodical and mindful. You will learn the following action steps in order:

- **Step 1.) Beginner ChatGPT Adventures** – One of the easiest ways is to use ChatGPT to help YOU navigate a personal issue. Finding a recipe online, for example. Learning how to read a smart contract from the Ethereum network<sup>3</sup>. That sorta thingees.
- **Step 2.) More Advanced ChatGPT Adventures** – Finding resources for ChatGPT in Marketing, Sales, Just about Anything You want!
- **Step 3.) The Secret to Taming ChatGPT** – 'tis an easy secret, I will admit... and it's one you probably have already guessed!
- **BONUS: ChatGPT Evolution** – OH! Over the months ChatGPT has made so many advances – here I show you just a few, Images and voice and bears, oh my!

---

<sup>2</sup> If not, PLEASE read it! It is crucial that you do so you know how to turn any fear into your friend.

<sup>3</sup> Highly recommended for extreme frustration.

And perhaps some other Coolio ideas as well. 😊

Ready for the adventure?

Alrighty, let us begin with:

**Breaking AI Boundaries: Empower Your Profit Growth  
with ChatGPT**

Hands, feet and a couple of right elbows down, ChatGPT is one of THE most perfect AIs out there for you to dip your toe into...

... and discover how wonderfully beneficial it can be!

Let's start with the basics of, well, signing up.

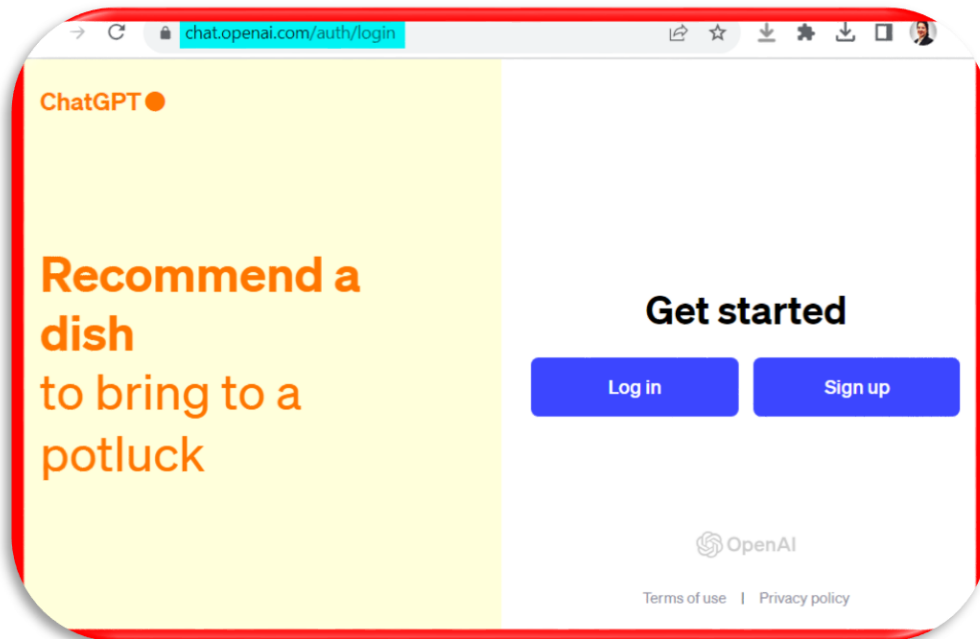

First, visit:

- <https://chat.openai.com/auth/login>

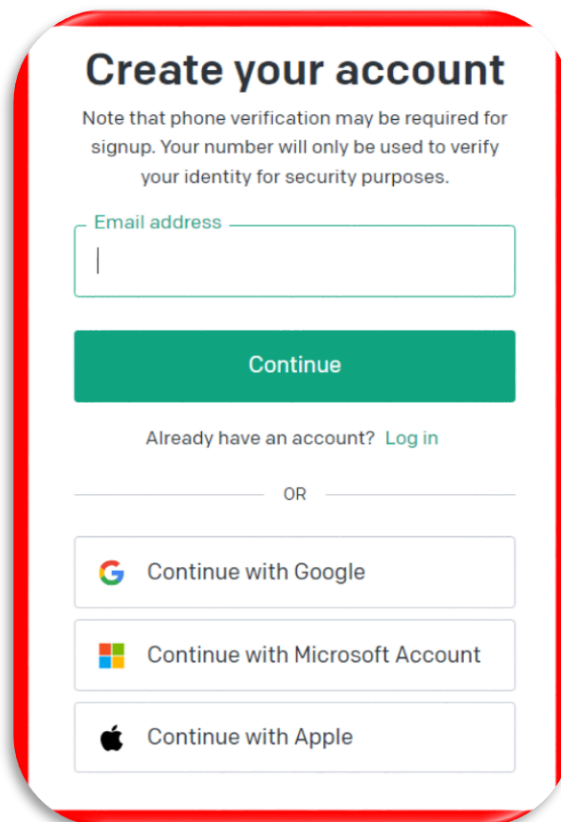

Or in other words:

From there, choose however you'd like to authenticate (Google? eMail? Microsoft? Etc. etc.).

And when you're finally finished with it all, visit:

- <https://chat.openai.com/>

You'll see something like:

There are 2 different versions you can consider. ChatGPT 3.5 is free (but it does become overloaded sometimes).

ChatGPT 4 is paid (\$20/month) and offers additional power including:

- **Turning on Plugins** (which allow you to expand ChatGPT's abilities – you can learn more about them [here](#)).
- **Turning on Code Interpreter** (which enhances ChatGPT's ability to write and debug code. You can learn more about that [here](#)).
- **Turning on the ability to create Glorious Magnificent Images like :**

Moose Wizards for the win!

But back to ChatGPT. I myself use ChatGPT 4 (uptime is \*dramatically\* improved) and it's worth the \$20/month to me (especially if you add in the image delight!). You need to decide on your own which works best for you.

Plus!

Don't forget, in the main resource guide we learned how to transform your AI Fear into your AI Friend (I named my particular Fear "Fluffy the Wonder Fear Dragon").

But how? Such a great question – move now to:

## **Step 1.) Beginner ChatGPT Adventures**

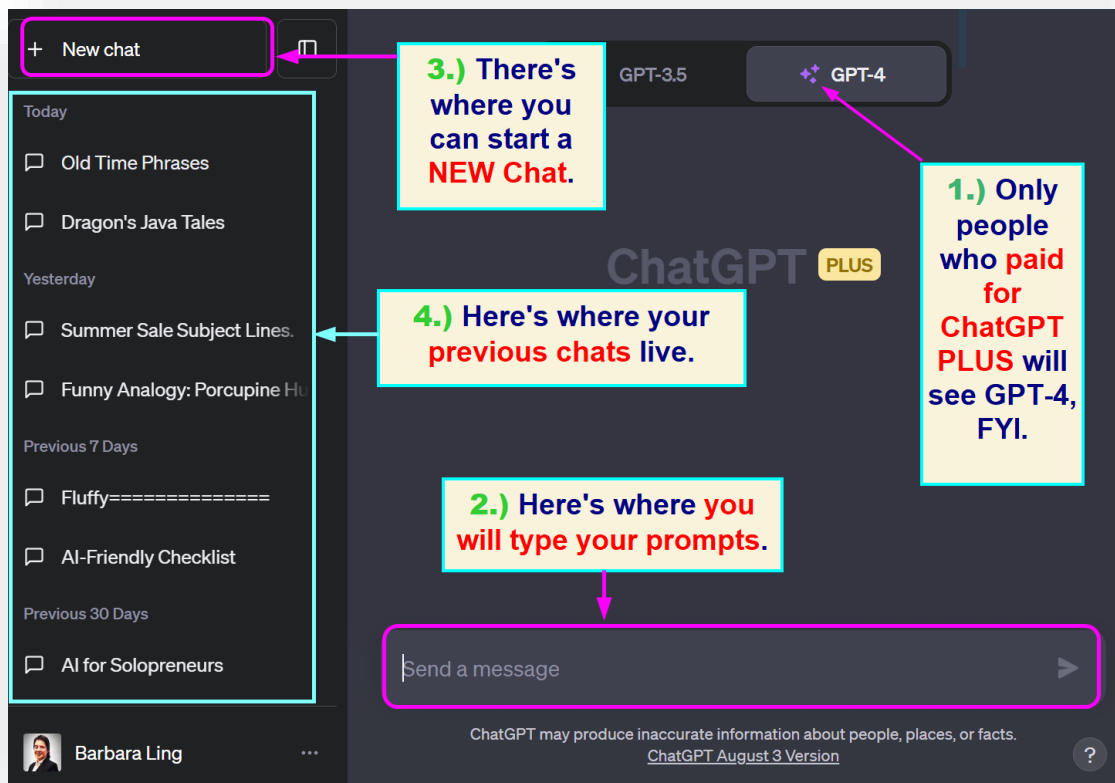

Before we dive into that, let's first remember what your main goal actually IS.

It's to dismantle your AI fears... and thus unshackled from those fears, it's to see exactly \*how\* one actually \*use\* AI to speed up your profits!

So! One of the easiest AIs around is ChatGPT, over at <https://chat.openai.com/>. Please go there now and login (remember, 3 "How to ChatGPT" ChatGPT tutorial links are right near the beginning of this chapter).

The first thing you'll see is:

The DAB AI Files: **ChatGPT Made Friendly**  
Breaking AI Boundaries: Empower Your Profit Growth with ChatGPT  
Step 1.) Beginner ChatGPT Adventures

Consider the previous image. When you log in to ChatGPT, you'll see a GPT-4 (if you had purchased ChatGPT Plus). We don't have to worry about that here.

**Next, look at #2 "Here's where you will type your prompts."**

See? It's just a simple text box where you can type any prompt you desire. Nifty!

**#3 zooms right to the top and points to the textfield "New Chat".** One of the things you might discover is your current chat becomes more confusing than assembling IKEA furniture using hieroglyphics. Meh, it happens... in that case simply start again by clicking on "New Chat."

**And #4 simply holds all of your chats** so you can revisit them again and again when necessary.

So actually, the initial ChatGPT screen that you see doesn't have to be scary at all. Like (ideally) everything in technology today, the focus is on "simple."

**The DAB AI Files: ChatGPT Made Friendly**  
**Breaking AI Boundaries: Empower Your Profit Growth with ChatGPT**  
**Step 1.) Beginner ChatGPT Adventures**

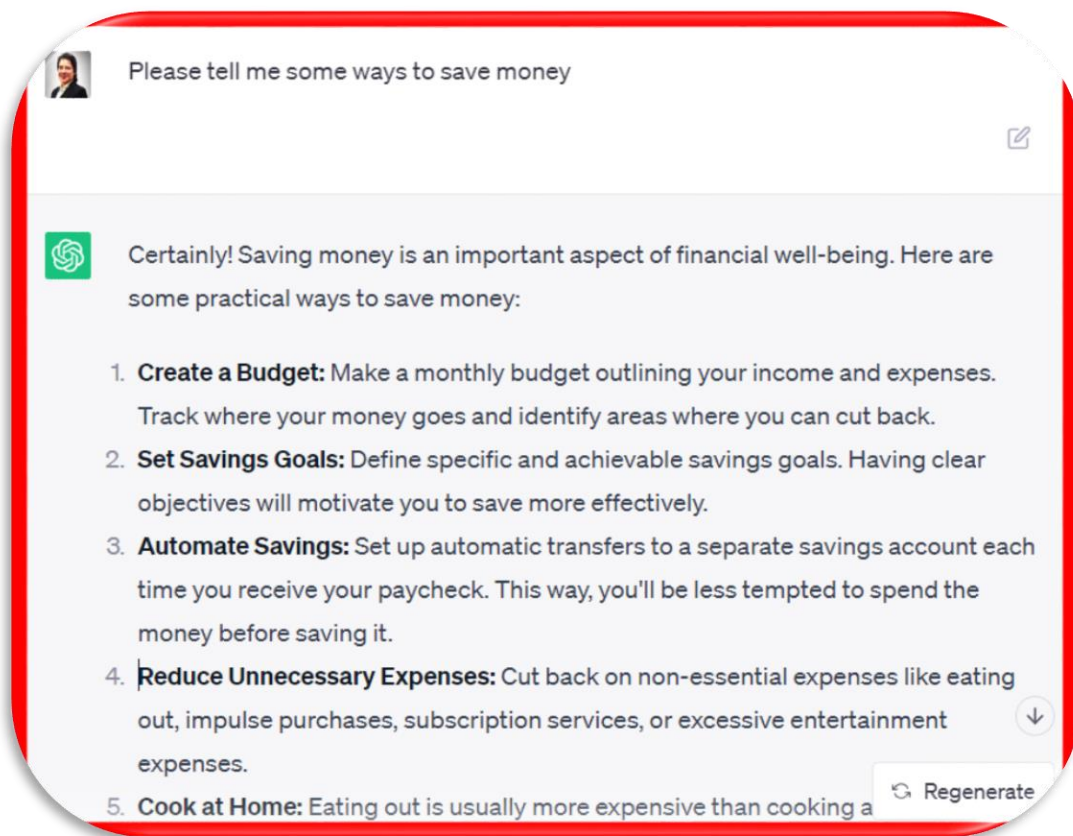

---

So! Let's be simple!

One of the best ways to getting comfy with ChatGPT is to simply ask it for help in your personal life. For example, you can ask:

- Please give me a 7 day workout plan
- Please tell me the best recipe for omelets
- Please tell me some ways to save money

Etc.etc. Here's an example:

**It responded with 20 suggestions in total. Isn't that cool?**

Not only that, but you can tell ChatGPT to be:

- A master copywriter

**The DAB AI Files: ChatGPT Made Friendly**  
**Breaking AI Boundaries: Empower Your Profit Growth with ChatGPT**  
**Step 1.) Beginner ChatGPT Adventures**

---

- An expert in financial matters
- A world famous chef

That way, it knows how to slant its answers into something that really gets to the meat of what you want to learn.

Actually, let's enhance that – you want to be as specific as possible when seriously using ChatGPT.

Consider this travel guide example:

*"Example travel guide*

*I want you to act as a tour guide. I'll write you my location, and you'll suggest a place for me to visit near my location. In some cases, I will also tell you the type of places I will visit. You will also suggest places of a similar nature that are near my first location.*

*My first request is "I am in New York City and I just want to visit museums."*

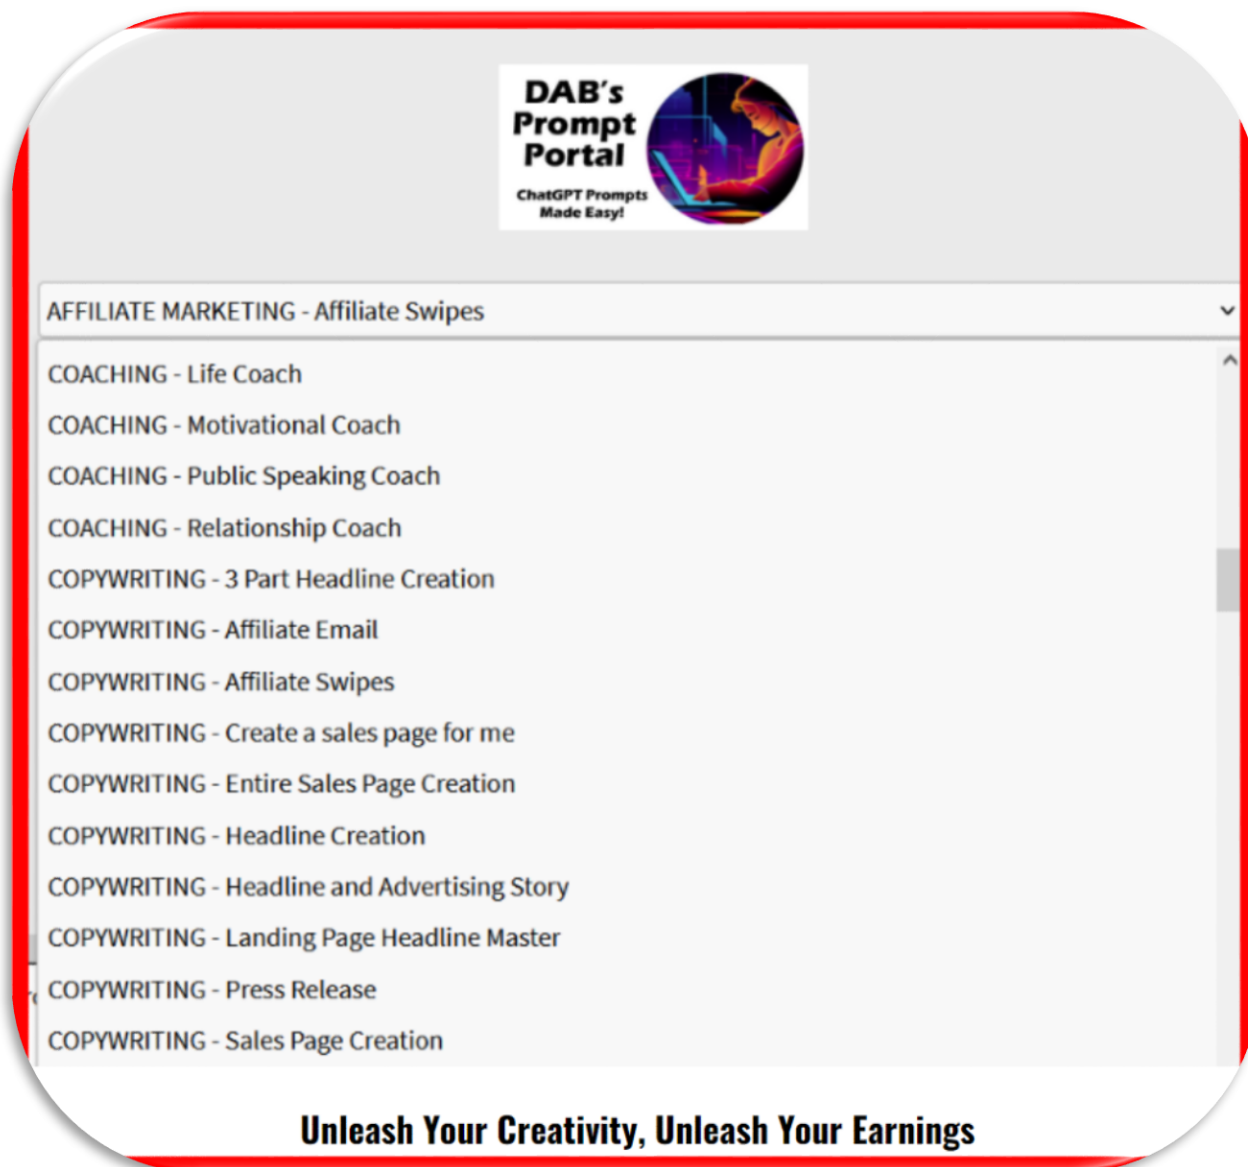

You can find many more suggestions like that at [ChatGPT Guide: Use these prompt strategies to maximize your results.](#)

And if you're nervous about actually \*submitting\* prompts on ChatGPT, you can take advantage of the DAB Prompt Portal over at:

Step 2.) More Advanced ChatGPT Adventures

---

And as you'll see, one of the *\*best\** ways to make ChatGPT a grand tool for you is to ...

... **simply have fun with it!**

Once that is completed, and you're feeling a wee bit more adventurous, you can then turn to:

## Step 2.) More Advanced ChatGPT Adventures

**One of the very best uses for ChatGPT is to speed along your profit generation.**

Doesn't that sound peachy?

However, there *\*is\** one HUGE caveat.

ChatGPT, like all AIs, do not *\*directly\** make you money.

Alas, nope, this is sadly true.

HOWEVER!

**It *\*does\** allow you to speed UP what is NEEDED to increase your income.**

It does this by helping you complete your required tasks sooner than if you did them alone.

- How to use ChatGPT for fun
- How to use ChatGPT for marketing
- How to use ChatGPT to speed you towards profits

And that's most excellent indeed!

But there \*one\* more thing we need to do, and that is discover:

## **Step 3.) The Secret to Taming ChatGPT**

It's a lot easier than you could imagine.

And it's this.

Simply incorporate ChatGPT into your business efforts, if not your daily routines...

... every day.

That's so important, let us repeat it:

Title: ChatGPT Marketing Made Easy: A Beginner's Guide to Embrace AI in Your Marketing Strategy

Introduction:

- Welcome and address the fears and concerns of beginners regarding technology and AI.
- Highlight the benefits of using ChatGPT in marketing and how it can enhance business success.
- Set the tone for a beginner-friendly approach to learning and using ChatGPT for marketing.

Chapter 1: Demystifying ChatGPT and AI Technology

- Introduce ChatGPT and its role in the field of artificial intelligence.
- Explain the fundamentals of AI in simple terms, dispelling common misconceptions.
- Showcase real-life examples of how AI is transforming marketing strategies.

Chapter 2: Understanding the Basics of ChatGPT

The \*entire\* response is \*massive\*.

And the best thing about trying these prompts?

**You see, the more you use ChatGPT, the easier and more friendly it will become!**

But one thing is HUGELY important for you to remember....

**ChatGPT has zero creativity right now (but that's growing, mind you).**

So always make sure to infuse \*anything\* you create with your own unique writing voice...

...and use ChatGPT as it was always meant to be used.

But! Like sands through the hourglass, these are the days of \*massive\* AI development! And that includes ChatGPT as well (which, you know, came out around December 2022). It's now almost a year later, more or less, so let's now delve into this excellent:

**BONUS: ChatGPT Updates!**

Oh my oh my, ChatGPT has truly grown and flexed its muscles bigtime!

**Recently, for example, it added voice and image recognition to its services.**

And let me tell you, it's something else indeed to see.

A deep, dense forest where the moonlight barely pierces through the canopy. The ancient trees whisper secrets, and the leaves rustle like they're gossiping about the stranger in their midst. And who's that emerging from the shadows? A jaguar, but not just any jaguar... A jaguar wizard! This majestic creature is draped in a flowing wizard gown, billowing in the gusty wind. The gown dances with the breeze, intertwining with the melodies of the forest. And in its paw? A wand with a tip that glows brighter than the North Star. You can almost feel the raw energy pulsating from it, with a hint of motion blur that emphasizes its power. The entire scene radiates an aura of mystery and enchantment.

You see, I recently became active in a Crypto group where one of my “things” used to be creating visual “breakfasts” for everyone in the morning. It was a nice community action and I enjoyed doing it.

After I reactivated myself, I was asked to continue providing such things! No problem, thought I, but as it was Sunday, I normally will share images of Sunday brunches instead of breakfasts. And it occurred to me, what would work better, ChatGPT with Dall-E-3, or Midjourney?

Here is the conversation that took place.

*Good morning!<sup>4</sup> Please make me an image of a high-class Sunday brunch buffet. It should have a lobster and shrimp station, a prime rib station, a veggie station and also have champagne bottles too. No people, just the luxurious setting of the buffet.*

## ChatGPT

Well, hello there! 😊 Ah, a high-class Sunday brunch buffet, you say? The kind that makes you go, "Wow...is that lobster waving at me?" and "Prime rib for brunch? Yes, please!" I can see it now: the glint of champagne bottles sparkling in the light, waiting to be popped... Enjoy!

Alright, let's dive into this delicious visual feast...

**Photo<sup>5</sup>:** A lavish Sunday brunch buffet spread across an elegantly draped table. To the left, a seafood station showcases glistening lobsters and succulent shrimp, arranged on crushed ice and garnished with fresh lemon wedges and sprigs of parsley. Moving right, a prime rib station beckons with a succulent, perfectly cooked roast, surrounded by carving tools and a silver gravy boat filled with rich au jus. Next to it, a veggie station brims with colorful roasted vegetables, fresh salads, and gourmet dips. The scene is crowned by an array of champagne bottles,

*Oh number 2 is beautiful! Could you somehow move the food a bit closer (ie, zoom in a bit) while retaining the light, airy, spacious feeling?*

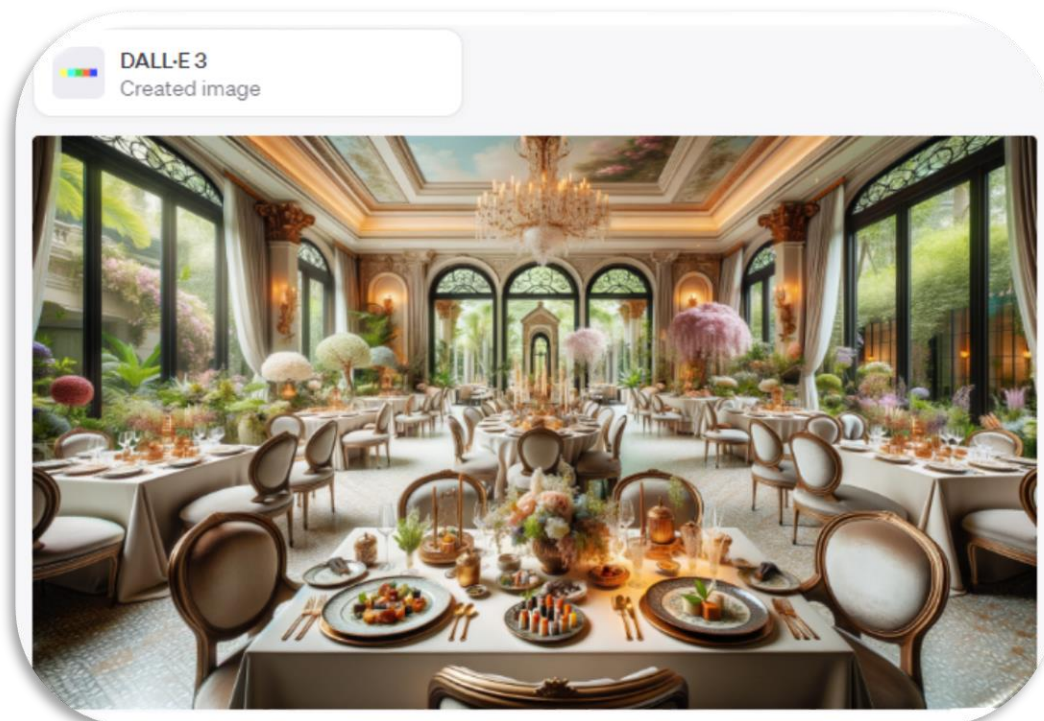

## ChatGPT

Thank you for the kind words! I'm thrilled you loved the second image. 🥰

I totally get what you're aiming for. You want the scrumptious food to be the star of the show, while still soaking in that light, airy ambiance. Got it!

**Photo:** A closer view of the spacious dining area from the second image, focusing more on the two opulent tables. The main courses and desserts are now more prominently displayed, yet the room still feels open and airy. The soft, natural light from the elegant windows continues to play across the tables, and the beautiful trees and vibrant flower arrangements subtly frame the scene, ensuring that serene garden oasis vibe remains intact.

Let's give this a whirl, shall we? 🍴🌸🌿🌻🍰

Voilà! ✨ I've brought the food into sharper focus while ensuring the room retains its open, airy charm. The dishes beckon a tad more temptingly, don't they? Yet, the sun-dappled ambiance and the lush greenery still envelop the scene in that garden oasis feel.

How does this resonate with your vision? Is it making your taste buds dance yet? Or do we need a bit more seasoning? Let me know! 🍴🌸🍰🍪☀️

*This is great except... you forgot the 2 buffet tables, one for main entries and such, the other for desserts<sup>7</sup>.*

## ChatGPT

Ah, my apologies for that oversight! Thanks for pointing it out. Let's correct that right away.

**Photo:** A closer view of the spacious dining area, where two distinct tables take center stage.

The first table is adorned with main courses like prime rib, seafood, and veggies, presented with elegance and flair. Just a short distance away, a second table steals the spotlight with an array of delectable desserts, ranging from pastries to chocolates.

The ambiance remains light and airy, with the soft sunlight and the surrounding greenery creating that serene garden oasis feel.

Alright, let's dive back in and make sure we get both those tables front and center! 🍷🍰🌸🍪☀️🌸

There we go! Now we're cooking! 🍴

Two tables, just as you envisioned. One boasting those main courses and the other tempting us with sugary delights. All of this, wrapped up in that sunlit, garden-like ambiance.

What do you think? Does this plate up the brunch scene you had in mind? Is your appetite for visual delight sated, or is there another course you'd like to explore?

Dish it out! 🍷🍰🍩🌻☀️

*Yes indeed! Thank you very much.*

You're very welcome! It was a pleasure crafting that brunch wonderland with you. If ever you have more ideas or need assistance in the future, just give a shout. Enjoy the rest of your day, and remember... there's always room for dessert!

Take care and happy brunching! 🍷🍷🍷

And from there? Here was how I used the result!

Isn't that the definition of sheer magnificence and ease and all-around wowness?

Now, to keep my comparisons fair, I ALSO tried to create such a thingee in MidJourney!

And on the next page you'll see the results.

As you can tell, creating the needed image was 'way easier in ChatGPT with Dall-E-3, because you can change the inputs as though you were actually speaking with the Interface.

That being said, of course, there both benefits and nonBenefits to both MidJourney and Dall-E-3.

But as this blueprint focuses upon ChatGPT, let's wrap things up with:

## About DAB Coaching, DennisAndBarb

Just who ARE these modern legends on whom the movie “Hobbs And Shaw” patterned? Well! Let’s begin with Dennis the Dignified:

**Dennis  
Becker**

### **Dennis Becker**

Dennis has been online since he started his first eBay business in 1998, and in 2002 started my first Internet marketing business. But 2005 was the year things actually ‘clicked’ for me and he set up multiple streams of income by focusing on repeatable, sustainable business methods and strategies. He’s still doing that today and earn six figures a year from his online business.

He’s written over 50 books, set up numerous membership sites, and now devote most of his time helping others do what didn’t come so easily to me in the beginning.

And Barb the Caffeinated? Behold!

**Barb  
Ling**

### **Barb Ling**

Barb has been supporting her family via the Internet since 1998. Her first product was the only 5-Star recommended resource by Inc. Magazine. She is the author of over 100 ebooks and specializes turning ‘complicated’ into ‘simple’. She also excels in being more creative than MacGyver on a Good Day. 😊

Between us, we’ve authored 100s of books and courses, supported our families for over 25 years each doing what we now teach, and combined to form one of the top group coaching programs for those looking how to profit online.

And if you’re wondering what other goodies we might have, mosey on over to:

Hello. I'm Dennis (the menace) Becker, and along with my brilliant partner Barb Ling, we've been around these parts for quite a while, actually since the last century, so we've seen good times and bad times multiple times.

While I'm mainly known perhaps for publishing well over 50 eBooks, starting with "5 Bucks a Day" in 2006, which is why I'm universally known as "the 5 Bucks Guy" but I'm actually more passionate about creating and building membership sites and communities.
